LEJOG Day 6: Wigan - Wolves

23 Jun 2016

Ran into a big traffic jam - turned out it was for an old iron toll bridge.....charging 12p a crossing! Wonder if anybody was listening in at Jodrell Bank?

Big mill industry coming down into Stoke-on-Trent....these towns are always at the bottom of valleys?!

MIDDLEPORT POTTERY

Stayed on the Trent & Mersey Canal through Stoke - a much more scenic alternative than the 'topside' roads.

I'm not sure whether Phil was admiring the flowers when he lost concentration on a turn after a bridge and went flat on his @rse. Naturally I was there to help.....after completing my paparazzi duties.

Stopped in Stafford fo coffee & teacake before the final 20km to Wolves. Our clickety-clack cycle shoes made for good tap dancing....
