

LEJOG:

Departure

Thursday 16 June

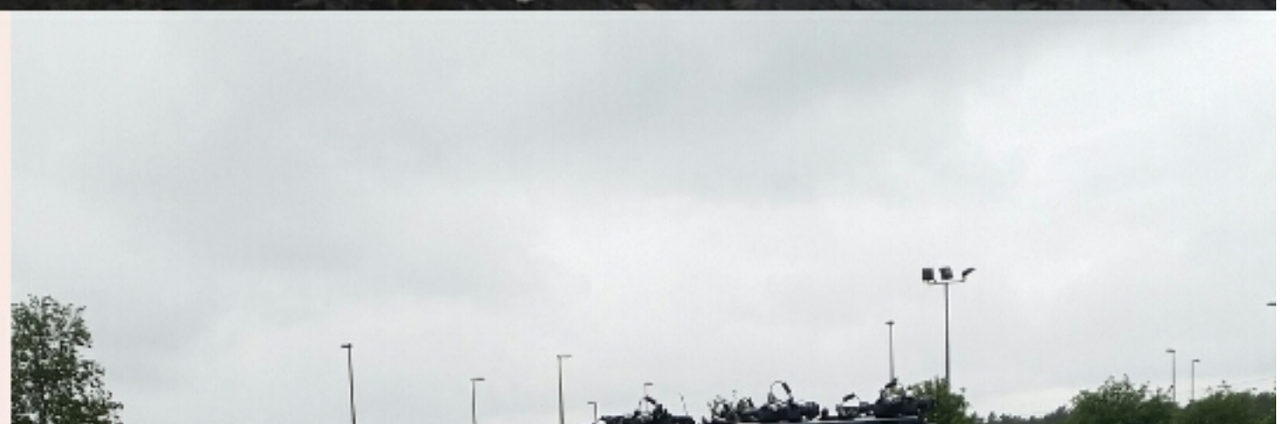

Leaving England: Overcast. Arriving in Scotland: OK by their standards, p*sing it down with rain by ours.

Cafe culture has not taken off in Inverness...can't think why? Loaded our bikes in the van and JOG here we come!

A DIFFERENT CLIMATE
The cairns were built more than 5,000 years ago when the land before you was not boggy but covered in scrub. Water-trapping peat had just begun to form and the climate was probably warmer and wetter than today.
THE CAIRN BUILDERS
Unlike their nomadic forebears, the cairn builders probably grew crops and herded cattle and sheep, though they may still have moved from place to place to hunt. The cairns required a significant level of organisation and co-operation to construct.

CAMSTER CAIRNS
HISTORIC SCOTLAND
Dogs must be kept on a lead.

Lots of sheep, yellow gorse, and purple flowers on the way down from JOG. Oh and some funny place names.
